PROJECTS

Lead Intelligence Tool Live Demo	<i>React.js • Node.js • Express.js • MongoDB • REST APIs • Gemini AI</i>
- Built and deployed a full-stack Lead Intelligence platform to manage, analyze, and prioritize leads with dynamic dashboards and lead scoring. - Integrated public GLEIF API for real company search and Gemini AI to generate personalized outreach emails, allowing users to convert companies into leads. - Developed and deployed the frontend on Vercel and backend on Render, implementing REST APIs, MongoDB integration, CORS configuration, and responsive UI.	
Digital Library Management System Live Demo	<i>React.js • Redux Toolkit • Node.js • Express.js • MongoDB • Razorpay</i>
- Built a full-stack MERN library subscription platform with OTP-verified JWT authentication and a real-time interactive seating chart showing available, booked, and blocked seats. - Integrated Razorpay payments with HMAC-SHA256 signature verification and server-side amount validation, powering 1/3/6/12-month subscription plans with auto-generated virtual ID cards. - Built an admin dashboard for managing users, seats, subscriptions, and payment history, with automated OTP, payment-confirmation, and expiry-reminder emails via node-cron.
